

Instructions for Assembly

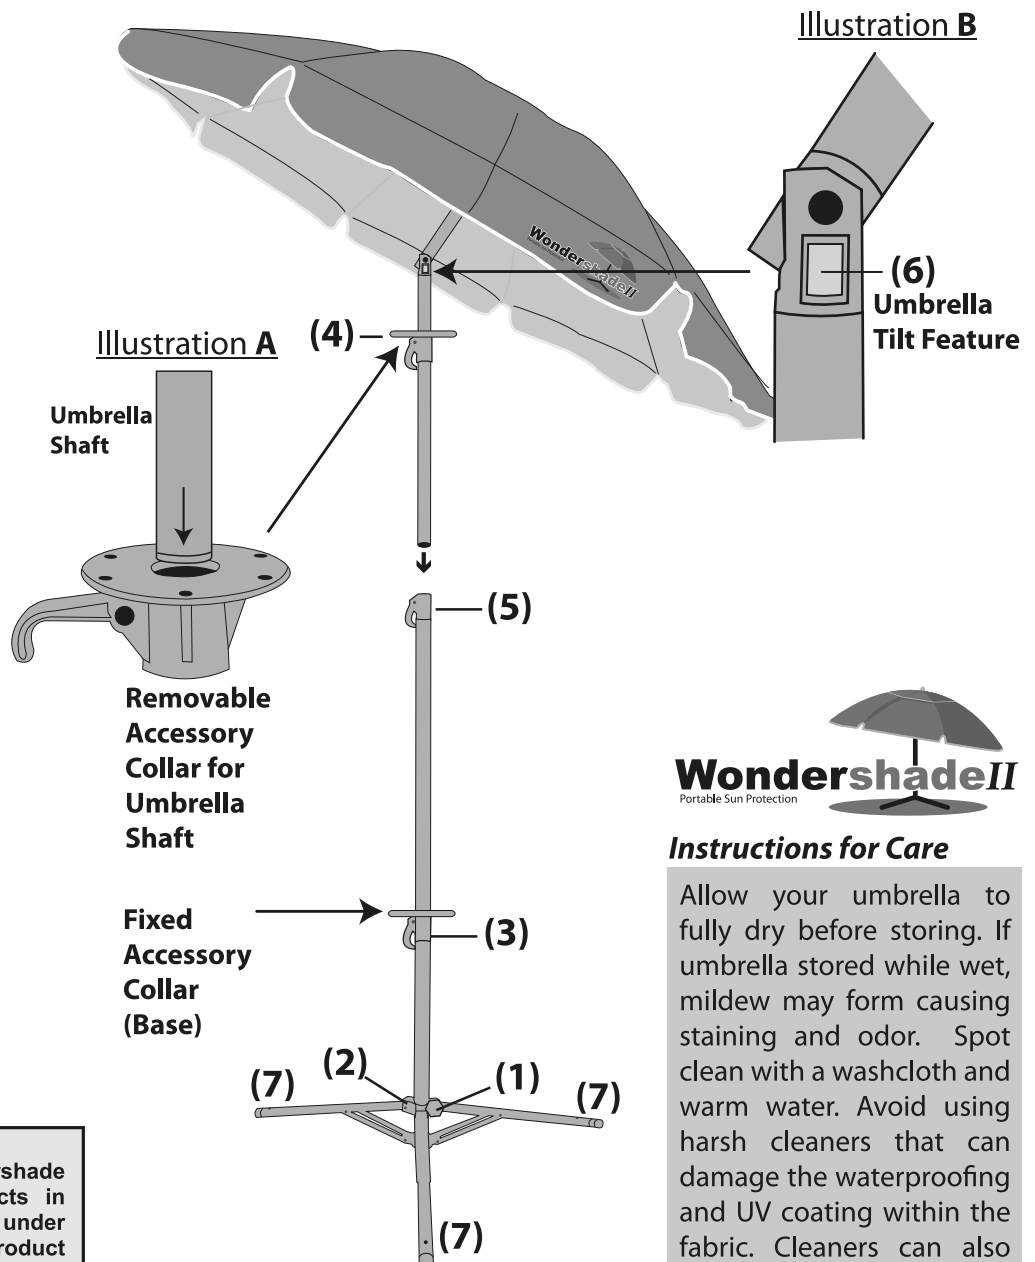

Contents: Base, Umbrella, Accessory Collar, 2 Hooks, 2 Cup Holders, 3 Stakes and Carrying Bag

Set-up base: Loosen leg lock by turning knob (1) counter clockwise and slide collar (2) down the base shaft until legs are extended. Secure legs by turning knob clockwise to tighten. Adjust telescoping base post height via the quick release (3) on base. Extend telescoping post to desired height and close quick release.

Set-up umbrella: Locate and attach removable accessory collar (4) onto umbrella shaft prior to placing umbrella into base. The collar is secured via the quick release (see illustration A). Open quick release (5) on telescoping base post by moving to horizontal position. Open umbrella and insert umbrella shaft into base and set to desired height. Secure umbrella in base by moving quick release to closed position (press downward).

Tilt umbrella: Press button (6) located on tilt mechanism to unlock and tilt umbrella (see illustration B). Release button to lock.

Optional ground stakes: The three stakes included can be used to secure the Wondershade in place by inserting them through the holes (7) in the legs and into the ground.

Instructions for Care

Allow your umbrella to fully dry before storing. If umbrella stored while wet, mildew may form causing staining and odor. Spot clean with a washcloth and warm water. Avoid using harsh cleaners that can damage the waterproofing and UV coating within the fabric. Cleaners can also cause discoloring.

30 Day Warranty

Maranda Enterprises warrants Wondershade to be free from manufacturer defects in material and workmanship. Liability under this warranty is limited to replacing product found to be defective within 30 days of the date of purchase.

Best Practices: Sunlight comes from all directions, both direct and indirect. While a sun shade provides a level of protection, there are other factors that can lead to exposure to the sun's harmful rays. Most notable is the reflection of the sun off of sand, water and other surfaces. Wondershade will block a significant amount of UV rays directly above the user, but it does not eliminate the need to consider best practices to avoid exposure to the sun that include using sunscreen lotions and sprays.
